

The Good Life Product Company, focuses on the whole wheel of the cannabis spectrum, as nature designed it! Our proprietary dual extraction method is designed specifically to extract the full spectrum of Phyto-cannabinoids. CBD-G is the strongest known CBD molecule in the Hemp plant, and our extraction system concentrates this molecule.

What is CBD? What are the different CBD Molecules, and how do they work in conjunction with your body? The answer, your endocannabinoid receptor system! Yes, we all have one, and our products at The Good Life Product CO, are designed to work with yours! We do not isolate one Cannabinoid, because the design of nature does not need re-written.

CBD-G is key in the use of helping with a broad spectrum of conditions, & with our proprietary methods, our tinctures have been proven to help with- sleep disorders, chronic pain relief, digestive conditions, appetite replenishment, & much more!
